Individual Comments:	At this stage in my career, I am quite satisfied that there is much more to learn in my current capacity. At the same time, however, I am always psychologically and intellectually prepared in case my presence might be needed in another area, whether it would be a vertical or lateral change. I feel that my superiors are more qualified than myself in determining where I might be best placed and whether I can rise to the challenge, and am confident that such decisions will be correctly made by the correct people at the proper time. With so many opportunities available (even in my current role), I find it difficult to narrow my aspirations into any definite direction, and will spread my talents as widely as the company requires me to. I am certain that I will end up where I can offer the best service, and where I will be happiest - as long as it's a lot of work that needs to be done in the most efficient ways possible!

Performance Summary	
Performance Summary (Employee):	I believe I have consistently gone far above and beyond the call of duty in the last year, but fall somewhat short on in-depth electronics knowledge. Thankfully, this does not seem to have affected my work output, but it does motivate me to engage in much home study. My overall assessment of my performance is that I still see many areas in which I can improve. I believe that more responsibility would bring out more of my capabilities.
Performance Summary (Manager):	Barry is an excellent technician that puts all of his talents to use and makes the most of his time while here at Wulfsberg. Barry has taken on the challenge of keeping up several benches and has done very well, Barry is also very good at multi-tasking from bench to bench. Barry has taken the most self initiative in regards to complying with the lean policies. Barry is quickly becoming one of our most valuable technicians and therefore feel that he is qualified for promotion to Tech level III.

Comments	
Comments (Employee):	It is a rare privilege to work for a company that encourages and supports individual career growth, allows its members to do what it takes to complete tasks without excessive chain-of-command complexities, and provides any necessary tools to achieve one's objectives. Each morning is another exciting challenge, and each new change is a great opportunity to grow and improve in many ways.
